

Dear ELACTA board members,

I look very much forward to be part of your team, soon. As a German speaking board member, I hope to facilitate the communication and transfer of information between the ELACTA board, English speaking members and the big German speaking IBCLC community in Europe. Since I'm also a member of EISL, I also look forward to facilitate cooperation and transfer of knowledge and materials between ELACTA and EISL.

EISL is an educational organization and I've been working as a teacher/ course leader/ speaker for several years within and outside of EISL – so I assume that you would like me to join the ELACTA team on educational issues.

Second, I have lots of experience in the administration of websites and other helpful tools for remote teamwork, so I'd very much like to join the website admin team – especially since I'm working at home most of the time and spend several hours at my computer daily. That would mean that I can provide support for website issues (including uploading necessary changes, corrections,) usually on quite short notice. I also could help to keep the German ELACTA website up-to-date and support translations, if necessary.

Other projects could include the establishment/ augmentation of an ELACTA newsletter and support of the conference team (since I have been on the EISL conference team for several conferences by now).

I look forward to meet you all in person in Bukarest (and have already booked my flights 😊).

Best regards,
Anja Bier
